

i-CON2V MK2 ESD 2-Channel Soldering Station, Base Unit without Tools - Erska 01C2235V

Item no.	ER-01C2235V	Manufacturer	Ersa
Manufacturer no.	01C2235V	EAN	4003008153996

The i-CON2V MK2 is an antistatic 2-channel soldering station supplied as a base unit without soldering tools. It is compatible with all Erska Vario tools and delivers up to 150 W with a short heat-up time. Ideal for demanding lead-free soldering in ESD environments.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Germany
Execution	ESD (antistatic)
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Erska i-CON2V MK2 is an antistatic 2-channel soldering station supplied as a base unit without soldering tools. It is compatible with all Erska Vario tools and is suited to demanding lead-free soldering processes at high working temperatures.

Technical data

Heat-up time	9.00 sec.
Antistatic design	Yes
Digital display	Yes
Max. power	150 Watt
Tip series	142
Temperature range	150-450 °C
