

Long Neck Angle Grinder LHW 100 W with 3 discs - Proxxon 28547

Item no. PX-28547

Manufacturer Proxxon

EAN 4006274285477

The LHW is a handy long neck angle grinder with a balanced 100 W DC special motor running at 15,000 rpm for 50 mm discs. Its long neck and slim die-cast aluminium head reach into tight spots, and run-down time is under one second. It ships complete with a grinding, fan sanding and cutting disc.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	1.816 kg

DESCRIPTION

The LHW long neck angle grinder works steel, non-ferrous metals, glass, ceramics, wood and plastic, and handles cutting, rough machining, grinding, fine grinding and shaping wood. Its balanced DC special motor is quiet, powerful and long-lasting.

- **Long body** with a slim die-cast aluminium head for good access to tight spots.
- **15,000 rpm** for clean cuts and even material removal.
- **50 mm discs** with a 10 mm bore.
- **Main housing** of glass-fibre reinforced polyamide.
- **Run-down time under 1 second** for more control after switch-off.

TECHNICAL DATA

- Voltage: 230 V
- Power input: 100 W
- Speed: 15,000 rpm
- Disc diameter: 50 mm with 10 mm bore
- Length: 270 mm
- Weight: 550 g
- Run-down time: under 1 second
- Insulation: class 2

For the workshop, model making and repairs in hard-to-reach areas.

Scope of delivery: LHW long neck angle grinder, corundum grinding disc (grit 60), fan sanding disc (grit 100) and reinforced cutting disc.
