

Drill/Mill Unit MICROMOT 60/EF with keyless chuck 0.3 to 3.2 mm - Proxxon 28512

Item no. PX-28512

Manufacturer Proxxon

EAN 4006274285125

The MICROMOT 60/EF matches the MICROMOT 60/E but features a keyless chuck from 0.3 to 3.2 mm. This is particularly useful when working with bits and cutters of various shank diameters, such as HSS drill bits. It can also be used with MICROMOT steel collets.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.367 kg

DESCRIPTION

The MICROMOT 60/EF combines the handy low-voltage precision drill/grinder with a keyless chuck, so tools with various shank diameters can be changed quickly. This is especially practical when working with HSS drill bits of different sizes.

- **Keyless chuck from 0.3 to 3.2 mm** for quick tool changes without swapping collets.
- **Beneficial with changing diameters**, for example when using HSS drill bits.
- **Can also be used with MICROMOT steel collets.**
- **Other specifications as the MICROMOT 60/E**, including continuously variable speed control.

TECHNICAL DATA

- Clamping range: 0.3 to 3.2 mm
- Equipment: as MICROMOT 60/E
- Tool holder: keyless chuck, also steel collets

Suitable for precision mechanics, model making and electronics, especially when tool diameters change frequently.
