

Soldering tip conical (pencil tip) 30° bent 0.2 mm dia. for 3202/376D/TS2200 - Quick 200-J

Item no.	QCK-200-J	Manufacturer	Quick
Manufacturer no.	200-J	EAN	4250078325871

Long-life soldering tip from the 200 series for the Quick 3202, 376D and TS2200 soldering stations, 30° bent, conical (pencil tip) shape, 0.2 mm dia.. Internally heated design with a ceramic heater and temperature sensor for precise temperature control. Suitable for lead-free and leaded soldering, long tip life, RoHS compliant.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	China
Execution	ESD (antistatic)
HS-Code	85159080900
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Quick 200-J long-life soldering tip for the Quick 3202, 376D and TS2200 soldering stations. The conical (pencil tip), 30° bent tip with 0.2 mm dia. suits fine to medium soldering work on populated PCBs.

Quick 200 series tips are produced to tight manufacturing tolerances. The combination of a ceramic heater with temperature sensor and the internally heated design gives very precise control of the soldering temperature and consistently good results.

Technical data

- Tip series: 200

- Tip shape: conical (pencil tip)
- Version: 30° bent
- Tip diameter / width: 0.2 mm
- Suitable for lead-free and leaded soldering

Compatibility and scope of delivery

- Fits the Quick 3202, 376D and TS2200 soldering stations
- Tip series 200, interchangeable with other tips of the same series
- Scope of delivery: 1 Quick long-life soldering tip 200-J

RoHS compliant. Made in China.
