

# Bandelin 529. Sonopuls MS 73

**Item no.** BND-529 **Manufacturer** Bandelin**Manufacturer no.** 529

Sonopuls MS 73

## TECHNICAL DATA

Article authenticity	<b>Original product</b>
Condition of article	<b>New</b>
Country of Manufacture	<b>Germany</b>
Execution	<b>TEC</b>
HS-Code	<b>84799080</b>
Weight	<b>0.224 kg</b>

## STANDARDS & COMPLIANCE

**ESD safe**

## DESCRIPTION

Sonotrodes transmit the mechanical vibrations into the sample, are thermostable, autoclavable and resistant against corrosive media. Sample volume, vessel diameter and determine desired amplitude Unit selection and sonotrode type. A high amplitude means particularly intensive sonication.

The horn is connected to step or booster horns.

All BANDELIN probes are made of the titanium alloy TiAl6V4 (3.7165).

Micro tips are sonotrodes with a particularly thin tip, which enables the sonication of small volumes with a high amplitude and thus a high ultrasonic effect.

**Weight** 0,224 kg**Order number** 529**Sonotrode diameter [mm]** 3

<b>Probe length [mm]</b>	175
<b>Connection step horn</b>	M8
<b>Packing Length [mm]</b>	230
<b>Packing Width [mm]</b>	70
<b>Packing depth [mm]</b>	30
