

Precision Milling Bit Set Tungsten Vanadium Steel 5- piece (disc, ball, cone, cylinder, ellipse) - Proxxon 28710

Item no. PX-28710

Manufacturer Proxxon

EAN 4006274287105

Five-piece precision milling set in tungsten vanadium steel with disc, ball, cone, cylinder and ellipse. Covers almost every contour task from area removal to cove.

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

Weight **0.014 kg**

DESCRIPTION

The Proxxon precision milling set combines five tungsten vanadium steel shapes: disc, ball, cone, cylinder and ellipse. The extended set covers more milling tasks than the three-piece version.

- **Five shapes:** for faces, hollows, chamfers, slots and rounded transitions.
- **Tungsten vanadium steel:** good service life on metal, plastic and wood.
- **Complete set:** comprehensive kit for the drill/grinder.

TECHNICAL DATA

- Contents: 5 milling bits (disc, ball, cone, cylinder, ellipse)
- Material: tungsten vanadium steel

Suitable for modelling, engraving, fine mechanics and varied shaping with Proxxon precision drill/grinders.
