

Tungsten Carbide Milling Bit Set 3-piece (cylinder, cone, roller) - Proxxon 28752

Item no. PX-28752

Manufacturer Proxxon

EAN 4006274287525

Three-piece tungsten carbide milling set with cylinder, cone and roller shapes for hard and tough materials. Carbide delivers long service life on demanding work.

TECHNICAL DATA

Ausführungsklasse TEC

Country of Manufacture Germany

Weight 0.011 kg

DESCRIPTION

The Proxxon tungsten carbide milling set comprises three shapes: cylinder, cone and roller. Carbide keeps its cutting edge on hard materials and extends the two-piece set with the cone shape.

- **Tungsten carbide:** long service life on hardened steel, cast iron and hard plastics.
- **Three shapes:** cylinder and roller for faces, cone for chamfers.
- **Three-piece set:** extended basic kit.

TECHNICAL DATA

- Contents: 3 milling bits (cylinder, cone, roller)
- Material: tungsten carbide

Suitable for tool and mould making, fine mechanics and hard materials with Proxxon precision drill/grinders.
