

## Tungsten Carbide Ball Milling Bit 5 mm - Proxxon 28760

Item no. PX-28760

Manufacturer Proxxon

EAN 4006274287600

Ball-shaped tungsten carbide milling bit of 5 mm diameter for hollows, curves and coves in hard materials. Carbide holds its edge far longer than tool steel.

### TECHNICAL DATA

Ausführungsklasse **TEC**Country of Manufacture **Germany**Weight **0.006 kg**

### DESCRIPTION

The Proxxon tungsten carbide ball milling bit measures 5 mm in diameter with a ball-shaped cutter. It forms hollows and curves and, thanks to carbide, keeps its edge even on hard materials.

- **Ball shape:** for coves, hollows and rounded transitions.
- **Tungsten carbide:** long service life on hardened steel, cast iron and hard plastics.
- **5 mm diameter:** for medium contour work.

### TECHNICAL DATA

- Diameter: 5 mm
- Shape: ball
- Material: tungsten carbide

Suitable for tool and mould making, engraving and fine mechanics with Proxxon precision drill/grinders.
