

Tungsten Carbide Rasp Milling Bit 3.2 mm - Proxxon 28757

Item no. PX-28757

Manufacturer Proxxon

EAN 4006274287570

Tungsten carbide rasp milling bit of 3.2 mm diameter for coarse, fast removal on wood, plastic and soft metals. The rasp tooth removes material quickly without clogging.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.007 kg

DESCRIPTION

The Proxxon tungsten carbide rasp milling bit measures 3.2 mm in diameter with a coarse rasp tooth. It takes off material quickly and suits fast roughing on softer materials.

- **Rasp tooth:** high material removal in a short time.
- **Tungsten carbide:** long service life, even on abrasive materials.
- **3.2 mm diameter:** for wood, plastic and soft metals.

TECHNICAL DATA

- Diameter: 3.2 mm
- Tooth: rasp
- Material: tungsten carbide

Suitable for modelling, woodworking and coarse roughing with Proxxon precision drill/grinders.
