

## Diamond Grinding Bit Cylindrical 1.8 mm - Proxxon 28240

Item no. PX-28240

Manufacturer Proxxon

EAN 4006274282407

Diamond-coated cylindrical grinding bit of 1.8 mm diameter for grinding the hardest materials such as glass, ceramic and hardened steel. The cylindrical shape grinds faces and edges evenly.

### TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

Weight **0.005 kg**

### DESCRIPTION

The Proxxon diamond grinding bit is cylindrical, 1.8 mm in diameter and diamond-coated. It grinds hard and brittle materials that defeat conventional grinding bits.

- **Diamond coating:** grinds glass, ceramic, stone and hardened steel.
- **Cylindrical shape:** for faces, edges and straight contours.
- **1.8 mm diameter:** for fine grinding work.

### TECHNICAL DATA

- Diameter: 1.8 mm
- Shape: cylindrical
- Coating: diamond

Suitable for glass and ceramic work, engraving and fine mechanics with Proxxon precision drill/grinders.
