

Diamond Grinding Bit Lens 5.0 mm - Proxxon 28250

Item no. PX-28250

Manufacturer Proxxon

EAN 4006274282506

Diamond-coated lens-shaped grinding bit of 5.0 mm diameter for grinding the hardest materials such as glass, ceramic and hardened steel. The lens shape suits shallow hollows and transitions.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.006 kg

DESCRIPTION

The Proxxon diamond grinding bit has a lens-shaped grinding face of 5.0 mm diameter and is diamond-coated. It grinds hard and brittle materials that defeat conventional grinding bits.

- **Diamond coating:** grinds glass, ceramic, stone and hardened steel.
- **Lens shape:** for shallow hollows and gentle transitions.
- **5.0 mm diameter:** for broader grinding work.

TECHNICAL DATA

- Diameter: 5.0 mm
- Shape: lens
- Coating: diamond

Suitable for glass and ceramic work, engraving and fine mechanics with Proxxon precision drill/grinders.
