

Radius Cutting Attachment for Radii up to 32 mm - Proxxon 24062

Item no. PX-24062

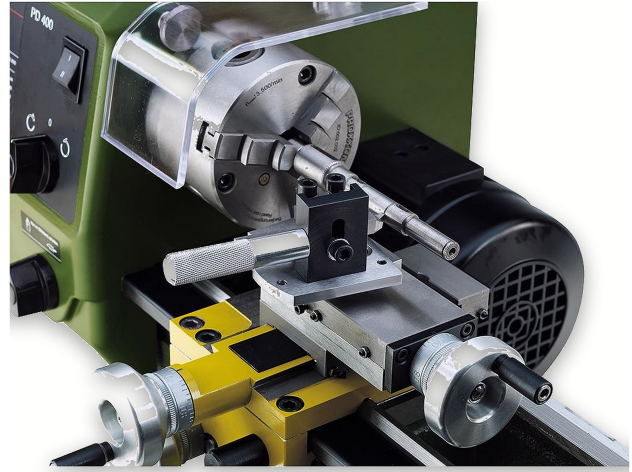

Manufacturer Proxxon

EAN 4006274240629

Radius cutting attachment for turning convex and concave shapes, radii and 3/4 spheres up to 32 mm radius. It mounts on the cross slide in place of the tool holder and fits the FD 150/E, PD 250/E, PD 400 and older Proxxon lathes.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.75 kg

DESCRIPTION

The radius cutting attachment mounts on the cross slide in place of the tool holder and adds rounded-form turning to the lathe. It produces convex and concave contours, radii and 3/4 spheres up to a maximum radius of 32 mm.

- Height-adjustable tool holder, cutter tip adjustable from 30 to 45 mm above the cross slide
- Fits the FD 150/E, PD 250/E, PD 400 and older Proxxon lathes
- Complete with 8 x 8 x 80 mm finishing cutter in a wooden box with sliding lid

TECHNICAL DATA

- Maximum radius: 32 mm
- Cutter tip: adjustable 30 to 45 mm above cross slide
- Base plate: 67 x 50 mm
- Height: 55 mm
- Cutter: 8 x 8 x 80 mm

For producing spheres, radii and rounded contours on matching Proxxon lathes.
