

Gerätehalter zum Rundschleifen auf Drehmaschinen - Proxxon 24098

Item no. PX-24098

Manufacturer Proxxon

EAN 4006274240988

Steel tool holder with 20 mm MICROMOT collar for precise clamping of the IBS/E or LBS/E rotary tools in the lathe tool post. Turns your lathe into a cylindrical grinding setup.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.094 kg

DESCRIPTION

This tool holder clamps the IBS/E or LBS/E rotary tools securely in the tool post of your lathe so you can grind cylindrical work on the lathe. It is made of steel and accepts the tools through the standard 20 mm MICROMOT collar.

- **Cylindrical grinding on the lathe:** holds the IBS/E or LBS/E in a fixed position.
- **Precise fit:** 20 mm MICROMOT collar for a secure seat.
- **Rugged:** made of steel, shaft 8 x 10 mm for clamping in the tool post.

TECHNICAL DATA

- Material steel
- Mount 20 mm MICROMOT collar
- Shaft 8 x 10 mm
- Total length 65 mm

Suitable for: Proxxon IBS/E and LBS/E rotary tools on lathes with a matching tool post.
