

Bohr- und Fräseinrichtung PF 230 für PD 250/E und PD 400 - Proxxon 24104

Item no. PX-24104

Manufacturer Proxxon

EAN 4006274241046

Converts the PD 250/E or PD 400 lathe into a complete machining centre. With a 35 x 400 mm column, slotted table and the mill/drill head of the FF 230 miller, including three collets 6, 8 and 10 mm.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	8.324 kg

DESCRIPTION

The PF 230 mill/drill attachment turns the PD 250/E or PD 400 lathe into a complete machining centre. The supplied slotted table replaces the tool post on the top slide, and the lathe then works as a compound table.

- **Drill and mill on the lathe:** X-Y travel via longitudinal feed and cross slide.
- **Stable column:** 35 x 400 mm with mounting bracket and screws; the PD 250/E and PD 400 already have the plane-milled surface.
- **Proven mill/drill head:** identical to the FF 230 miller head.
- **Collets included:** three of 6, 8 and 10 mm.

TECHNICAL DATA

- Column 35 x 400 mm
- Slotted table 110 x 70 mm with three T-slots 12 x 6 x 5 mm
- Mill/drill head identical to FF 230 miller
- Collets 6, 8 and 10 mm

Suitable for: Proxxon lathes PD 250/E and PD 400.

Note: the lathe is not included.
