DESCRIPTION

This edge finder set locates the reference edges and faces of your work piece quickly and accurately on milling machines, relative to the machine spindle. Both finders have ground clamping and probing diameters.

- **Accurate location:** for setting the starting point on the work piece.
- **Two lengths:** 6 x 6 x 50 mm for standard work.
- **Deep edges:** 6 x 5 x 75 mm for openings and recessed edges.
- **Storage:** in a wooden box with sliding lid.
