

Universal-Teilapparat UT 400 mit 4 Teilscheiben - Proxxon 24421

Item no. PX-24421

Manufacturer Proxxon

EAN 4006274244214

Universal dividing table UT 400 for accurate dividing of circular work pieces, mountable horizontally or vertically. The worm drive allows division through 360° and four index plates cover almost all divisions below 100. Used to make sprockets, gears, ratchets and cams.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	4.801 kg

DESCRIPTION

The universal dividing table UT 400 enables accurate division of circular work pieces. The worm drive and the four index plates make almost all divisions below 100 possible, as well as division through a full 360°.

- Mountable horizontally or vertically
- Worm drive for division through 360°
- 4 index plates: 27/42, 33/40, 34/39 and 36/38 for almost all divisions below 100
- Chuck taper identical to the main spindle of the PD 400
- With matching nuts and screws for MICROMOT standard T-slots (12 x 6 x 5 mm)
- In a wooden box with sliding lid (faceplate not included)

TECHNICAL DATA

- Division: through 360°, almost all divisions below 100
- Index plates: 27/42, 33/40, 34/39, 36/38
- Mounting: horizontal and vertical
- T-slots: MICROMOT standard 12 x 6 x 5 mm
- Chuck taper: identical to PD 400 main spindle

Ideal for manufacturing sprockets, gearboxes and drives, ratchets, cams and similar circular parts.
