

Standard-Ratsche 1/4" mit flexiblem Kopf, 52 Zähne - Proxxon 23074

Item no. PX-23074

Manufacturer Proxxon

EAN 4006274230743

The 1/4" standard ratchet with flexible head reaches tight and awkward fasteners. The head locks in 6 positions and several of its 52 teeth engage at once to transfer high torque. Direction switching and socket release both work at the push of a button.

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

Weight **0.161 kg**

DESCRIPTION

The Proxxon 1/4" standard ratchet is built for jobs where space is at a premium. Its flexible head locks in 6 positions across both rotation directions, so it reaches fasteners that a fixed ratchet cannot.

- Fine-tooth mechanism with 52 teeth; several engage simultaneously to transfer high torque
- Reversing function for clockwise and anticlockwise rotation on the ratchet head
- Quick-release button frees sockets instantly
- Head and shaft forged from a single piece of CrV steel, double nickel-plated and matt chrome-plated
- Grip of oil- and acid-resistant TPR with a hole for hanging

TECHNICAL DATA

- Drive: 1/4" (6.3 mm)
- Teeth: 52
- Head lockable in 6 positions
- Material: forged CrV steel
- Length: 220 mm
- Suitable for full professional use

Ideal for the car workshop and anywhere fasteners sit in confined spaces.
