### DESCRIPTION

Deep socket with 13 mm width across flats. The 50 mm total length lets it fit over nuts on long protruding threaded bolts, such as stud bolts.

- **Deep design (50 mm)** for long protruding threaded bolts
- **Six-point profile** for a secure fit on bolts and nuts
- **CrV steel** for high load capacity and long service life

### TECHNICAL DATA

- Drive: 1/4" (6.3 mm) female square
- Width across flats: 13 mm
- Profile: six-point
- Material: chrome-vanadium steel (CrV)
- Total length: 50 mm

Part of the complete Proxxon 1/4" socket system and combines with extensions, a universal joint or a T-bar.
