DESCRIPTION

The 3/8" socket with 22 mm width across flats transfers the torque of a 3/8" ratchet straight to the fastener. The hexagon profile in CrV steel grips the bolt head over its full face and prevents slipping.

- **3/8" square drive:** fits Proxxon 3/8" ratchets, extensions, universal joint and adapters.
- **Hexagon profile:** full-face contact on the bolt head, lower risk of rounding.
- **CrV steel:** tough and wear-resistant for high load capacity.
