

1/2" Socket 12 mm 6-Point - Proxxon 23408

Item no. PX-23408

Manufacturer Proxxon

EAN 4006274234086

1/2" drive socket, 12 mm across flats, made from chrome-vanadium steel (CrV) for hard workshop use. The 6-point profile grips the flats fully and protects the corners of tight bolts and nuts.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.058 kg

DESCRIPTION

This Proxxon 1/2" socket with a width across flats of 12 mm is built for daily workshop use. Made from tough chrome-vanadium steel, it transmits high torque reliably.

- **Strong material:** chrome-vanadium steel (CrV) for high load capacity.
- **Bolt-friendly 6-point:** full-face contact protects the bolt corners.
- **Width across flats:** 12 mm for the matching fastener.
- **1/2" drive:** fits ratchets, extensions, universal joint and handles in the Proxxon 1/2" range.

TECHNICAL DATA

- Drive: 1/2" square female
- Width across flats: 12 mm
- Profile: hexagon (6-point)
- Material: chrome-vanadium steel (CrV)

Applications: fastening work on vehicles, machinery and plant construction wherever a 1/2" drive is required.
