

1/2" Vielzahn-Einsatz VZ 12 XZN, 100 mm lang - Proxxon 23373

Item no. PX-23373

Manufacturer Proxxon

EAN 4006274233737

Spline socket bit VZ 12 with 1/2" drive for loosening and tightening XZN screws. The chrome-silicon-manganese-molybdenum steel blade transmits torque with a positive fit and low wear, while the base is made of CrV steel.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.119 kg

DESCRIPTION

The VZ 12 spline socket bit fits 1/2" ratchets and torque wrenches and engages XZN screws across the full flank length, which helps to prevent slipping even at high tightening torque.

- Blade made of chrome-silicon-manganese-molybdenum steel for high torque transmission
- Base made of CrV steel with 1/2" square drive
- Overall length 100 mm for accessible and recessed screws

TECHNICAL DATA

- Drive: 1/2"
- Profile: XZN spline VZ 12
- Length: 100 mm
- Blade material: chrome-silicon-manganese-molybdenum steel
- Base material: CrV steel

Suitable for engine and chassis work and wherever XZN screws are driven with a 1/2" ratchet.
