DESCRIPTION

The 24 x 27 mm open-end spanner from the Proxxon SlimLine range is carefully hardened and tempered and made to DIN 3110 and ISO 3318. Despite its slim, thin-walled design the transmittable torque clearly exceeds the values required by DIN and ISO.

Benefits

- Slim, polished heads for work on hard to reach fasteners
- Thorough surface treatment (double nickel-plated, single chrome-plated) with a smooth, easy to hold finish
- Durable laser-inscribed sizes in mm that stay readable
- Each piece is calibrated and finally checked, with tolerances tighter than DIN/ISO
- Suitable for full professional use
