|------------------------|----------|
| Ausführungsklasse      | TEC      |
| Country of Manufacture | Germany  |
| Weight                 | 0.061 kg |

### STANDARDS & COMPLIANCE

ISO 3318 DIN 3113

### DESCRIPTION

The 12 mm combination spanner from the Proxxon SlimLine range is carefully hardened and tempered and made to DIN 3113 and ISO 3318. The ring head is offset by 15 degrees so it sits well even over recessed bolts.

#### Benefits

- Combines a ring end and an open end in one spanner
- Ring head offset 15 degrees for easier access
- Slim, polished heads with torque well above DIN/ISO
- Thorough surface treatment (double nickel-plated, single chrome-plated) with a smooth finish
- Durable laser-inscribed size, each piece calibrated and finally checked

### TECHNICAL DATA

- Size: 12 mm
- Length: 160 mm
- Ring head offset 15 degrees
- Standard: DIN 3113, ISO 3318
- Finish: double nickel-plated, single chrome-plated
