DESCRIPTION

Single MicroSpeeder ring ratchet spanner in size 14 mm, straight and slim in design. The 72-tooth inner ring gear of high-alloy special steel drives from as little as 5° of lever travel, while torque transmission exceeds DIN and ISO standards.

- 72-tooth inner gear, drives from 5° lever travel
- CrV steel shaft, surface double nickel-plated and single matt chrome-plated
- Clearly readable size thanks to laser marking
- Slim head for very compact outer dimensions

TECHNICAL DATA

- Size: 14 mm
- Gear teeth: 72
- Drive angle: from 5°
- Shaft material: CrV steel

For full professional use. Ideal for inserting into tight spaces and complements the standard MicroSpeeder set.
