

MicroSpeeder mit Gelenk SW 21 mm, 355 mm - Proxxon 23058

Item no. PX-23058

Manufacturer Proxxon

EAN 4006274230583

Ratcheting ring spanner with self-positioning hinge in 21 mm size. The 72-tooth inner gear engages from just 5° of lever travel, so you can work fasteners in tight spots without repositioning. Extra-long 355 mm body for added leverage.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.404 kg

DESCRIPTION

The hinged MicroSpeeder combines a ratcheting ring spanner with a self-positioning joint, which makes it ideal wherever space is tight and access is awkward. The size is 21 mm.

- **Drive from 5° of lever travel:** the 72-tooth inner gear of high-alloy special steel keeps working where conventional spanners can no longer be repositioned.
- **Self-positioning hinge:** holds its angle and stays fully effective even after more than 10,000 operations.
- **Torque transmission well above DIN/ISO** thanks to the encapsulated gear design and slim head.
- **CrV steel shaft** with double nickel plating and a matt chrome finish, the size is permanently laser marked.

TECHNICAL DATA

- Size: 21 mm
- Drive: 72-tooth inner gear, from 5° lever travel
- Shaft material: CrV steel, twice nickel plated, once matt chromed
- Length: 355 mm

Suited to engine removal and refitting, work on automatic transmissions, rear axles and any cramped location. Built for full professional use.
