DESCRIPTION

This Proxxon FLEX-DOT screwdriver drives hexagon socket (Allen) screws of HX 4 mm. Thanks to the ball head, even hidden or angled screws can be engaged at a working angle of up to 25 degrees.

- **Ball head:** drives hard-to-reach screws at an angle of up to 25 degrees.
- **Special steel blade:** matte-chrome shaft of chrome-silicon-manganese-molybdenum alloy steel for high load capacity.
- **FLEX-DOT handle:** rounded two-component grip with flexible nubs for a secure hold and comfortable fast turning.
- **Transverse hole:** for hanging up the tool or applying a lever for more torque.
- **Laser marking:** permanently legible size marking on the shaft.

Technical data

- Drive size: HX 4 mm
- Blade length: 100 mm

- Blade material: chrome-silicon-manganese-molybdenum special steel, matte chrome plated
- Head shape: ball head, working angle up to 25 degrees
- Handle: FLEX-DOT two-component grip
- Suitable for continuous professional use

Ideal for assembly and maintenance in machine, vehicle and model building wherever hexagon socket screws have to be turned reliably, even in tight spaces.
