DESCRIPTION

This Proxxon FLEX-DOT nut driver takes external hexagon screws and nuts of 11 mm across flats and is handled just like a conventional screwdriver.

- **Hexagon socket:** for external hex screws and nuts AF 11 mm.
- **Special steel blade:** matte-chrome shaft of chrome-silicon-manganese-molybdenum alloy steel.
- **FLEX-DOT handle:** two-component grip with flexible nubs for a secure hold and fast turning.
- **Transverse hole:** for hanging up the tool or applying a lever for more torque.
- **Laser marking:** permanently legible size marking on the shaft.

Technical data

- Across flats: 11 mm
- Blade length: 125 mm
- Socket: hexagon for external hex screws and nuts

- Blade material: chrome-silicon-manganese-molybdenum special steel, matte chrome plated
- Handle: FLEX-DOT two-component grip
- Suitable for continuous professional use

Handy for assembly and maintenance on appliances, machines and vehicles when hex nuts and screws need to be set quickly without a ratchet.
