

L-Handle Screwdriver TX/TTX 8, Short/Long - Proxxon 22440

Item no. PX-22440

Manufacturer Proxxon

EAN 4006274224407

L-handle screwdriver for Torx screws of size TX 8 with two blades in one tool. The short blade carries a standard TX, the long blade a tamper TX with a frontal hole for security screws. The ergonomic asymmetrical two-component handle reduces pressure marks under high force.

TECHNICAL DATA

Ausführungsklasse **TEC**

Country of Manufacture **Germany**

Weight **0.029 kg**

DESCRIPTION

The Proxxon L-handle screwdriver drives Torx screws of size TX 8 with two blades in one tool.

- **Two blades in one tool:** short side with standard TX, long side with tamper TX (frontal hole) for security screws.
- **L-shape as a lever:** when using the short blade, the longer shank acts as a lever for extreme torque.
- **Ergonomic handle:** asymmetrical two-component shape with soft zone reduces pressure marks in continuous use.
- **Special steel:** continuously hardened and stress-relieved for balanced torsional rigidity and toughness.

TECHNICAL DATA

- Profile: TX 8 (short blade) and TTX 8 (long blade)
- Long blade: 110 mm
- Blade of chrome-silicon-manganese-molybdenum special steel, matte chrome plated
- Laser-marked size on shaft and handle, transverse hole for hanging up

For machines, devices and assembly work with Torx and security Torx screws.
