

L-Griff-Schraubendreher TX 27 / TTX, Klingen 160 mm - Proxxon 22452

Item no. PX-22452

Manufacturer Proxxon

EAN 4006274224520

Double-ended L-handle screwdriver with a short standard TX blade and a long Tamper-TX blade with frontal hole. The asymmetrical L-handle delivers high torque without slipping. For TX 27 on hard-to-reach and tamper-proof screws.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.087 kg

DESCRIPTION

This TX 27 L-handle screwdriver combines two blades in one tool and uses the angled handle to apply unusually high torque. The short side carries a sturdy standard TX blade, the long side a Tamper-TX blade with a frontal hole for security screws.

- **Two profiles in one tool:** standard TX and Tamper-TX cover ordinary and tamper-proof screws.
- **L-shape for high torque:** when the short blade is in use, the longer shank acts as a lever.
- **Access in tight spots:** the angled design reaches screws a straight driver cannot.

TECHNICAL DATA

- Profile: TX 27 / TTX 27
- Short side blade length (C): 75 mm
- Long side blade length (A): 160 mm
- Dimension B: 20 mm
- Pack quantity: 2 pieces

Suitable for assembly, maintenance and repair on machines, equipment and vehicles wherever TX 27 screws need loosening or tightening.
