

MICRO-Bit-Ratsche 1/4" mit extrem schlankem Kopf 23 x 12 mm - Proxxon 23158

Item no. PX-23158

Manufacturer Proxxon

EAN 4006274231580

Fine-toothed MICRO bit ratchet with 1/4" hex holder and an extremely slim head (23 x 12 mm) for the tightest spots, such as under the dashboard or in the engine bay. 72 teeth transmit high torque, and the magnetic insert holds standard bits securely.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.107 kg

DESCRIPTION

The MICRO bit ratchet with 1/4" hex holder is made for screwdriving in hard-to-reach places: under the dashboard, when removing the airbag control unit, on the air conditioning, under the seats, on the interior trim, the sunroof and in the engine bay where space is tight.

Benefits

- Extremely slim head (23 x 12 mm) for the tightest installation situations
- Fine tooth drive with 72 teeth: several engage simultaneously to transmit high torque
- 1/4" holder for standard bits with magnetic insert, only 30 mm from reverse lever to bit end
- Reverse lever for clockwise and anticlockwise rotation, push-button bit release
- Forged CrV steel, double nickel-plated and matt chrome-plated, grip of oil- and acid-resistant TPR
- Practical hole for hanging up

TECHNICAL DATA

- Drive: 1/4" (6.3 mm) hex holder
- Head dimensions: 23 x 12 mm
- Teeth: 72
- Total length: 120 mm
- Material: CrV steel, TPR grip

For full professional use, ideal for vehicle repair and assembly in confined spaces.
