

Automatischer Universal-Achsvorschub AV/E für FF 500/BL, 100 W - Proxxon 24326

Item no. PX-24326

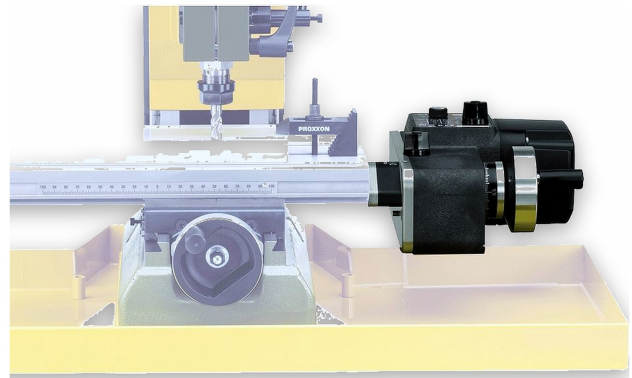

Manufacturer Proxxon

EAN 4006274243262

Automatic axial feed for the X axis of the FF 500/BL miller, also fitting the KT 400 compound table and FF 400 miller. Balanced special DC motor with electronic speed control and two speed stages, freewheel for manual operation by handwheel.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	2.348 kg

DESCRIPTION

The automatic universal axial feed AV/E automatically drives the spindle of the X axis and mounts to the compound table with two bolts. It fits the FF 500/BL miller as well as the predecessor KT 400 compound table and the FF 400 miller.

Benefits

- Simple assembly with two bolts, automatic drive of the X-axis spindle
- Balanced special DC motor with electronic speed control (full-wave electronics)
- Manual drive with two speed stages: stage 1 for common machining (20 - 75 mm/min), stage 2 for high-speed machining or quick adjustment (90 - 260 mm/min)
- Freewheeling function for manual operation by handwheel

TECHNICAL DATA

- Voltage: 230 V
- Power: 100 W
- Frequency: 50/60 Hz
- Spindle speeds: 10 - 130 rpm
- Feed stage 1: 20 - 75 mm/min, stage 2: 90 - 260 mm/min
- Dimensions: H 120, W 170, D 210 mm
- Weight: 3.5 kg
- Insulated to Class 1

Note: the miller shown in the product image is not included in the scope of delivery.
