

Bit Holder 1/4" x 162 mm, ball clamping for torque screwdriver with long handle - Wiha 27526

Item no. WH-27526

Manufacturer Wiha

EAN 4010995275266

The Wiha bit holder 27526 accepts 1/4" bits and secures them to the torque screwdriver with long handle via ball clamping. Blade in chrome-vanadium-molybdenum steel, through hardened. Overall length 162 mm.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
HS-Code	84661038
Weight	0.033 kg

DESCRIPTION

When fastening with a pre-set torque, a reliable bit holder is essential. The Wiha bit holder 27526 connects 1/4" bits securely to the torque screwdriver via a ball clamp mechanism, with a stainless steel sleeve finished in black plastic coating.

BENEFITS

- Ball clamping holds the bit securely while allowing quick bit changes
- Stainless steel sleeve with black plastic coating - corrosion resistant with secure grip
- Blade in chrome-vanadium-molybdenum steel, through hardened, matt chrome-plated
- 1/4" hexagon head compatible with standard 1/4" bits
- Overall length 162 mm fits torque screwdrivers with long handle

TECHNICAL DATA

- Hexagon head: 1/4"
- Outside diameter: 11 mm
- Diameter hex blade: 4 mm
- Overall length: 162 mm
- Dimensions: 162 x 14 x 14 mm

APPLICATIONS

For controlled fastening with pre-set torque in combination with the matching Wiha torque

screwdriver with long handle. Made in Germany.
