

Flashlight 3-in-1 LED, Class 2 Laser and UV, Swivelling Head - Wiha 41286

Item no. WH-41286

Manufacturer Wiha

EAN 4010995412869

The Wiha SB 246-70 flashlight combines powerful LED lighting (100-310 lm, two intensity levels), a Class 2 laser for precise positioning and UV light (390-400 nm) for technical inspections in one compact unit. The swivelling lamp head allows flexible light direction, while the magnetic holder and belt clip keep your hands free. Includes 3 AAA batteries.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	China
HS-Code	85131000
Weight	0.254 kg

DESCRIPTION

Inspections, ceiling installations and technical work in confined areas often require three separate tools. The Wiha SB 246-70 flashlight brings all three together: LED light with two brightness levels, a Class 2 laser for millimetre-accurate positioning, and UV light for leak detection and material testing. The lamp head swivels into an L-shape, pointing light exactly where it is needed.

BENEFITS

- 3-in-1: LED light (100-310 lm, two levels), Class 2 laser and UV light (390-400 nm)
- Swivelling lamp head for flexible light direction in an L-shape
- Magnetic holder and belt clip allow hands-free operation
- 2-second switch-on delay prevents accidental laser activation
- Protection class IPx4 - splash-proof
- Operating time up to 10.5 hours

TECHNICAL DATA

- Overall length: 153 mm, width: 30 mm
- Dimensions: 192 x 110 x 31 mm (L x W x D)
- LED luminous flux: 100-310 lm
- UV wavelength: 390-400 nm
- Laser: Class 2
- Operating temperature: -10 to +50 °C

- Protection class: IPx4
- Operating time: 10.5 h
- Power supply: 3x AAA batteries (1.5 V, 1250 mAh, included)

APPLICATIONS

Suited to electricians, installers and service technicians: LED mode for general illumination, laser for positioning drill holes and ceiling lights, UV mode for technical inspections and leak detection. The magnetic holder also lets the flashlight be mounted on most electrical enclosures.

Made in China. HS code: 85131000.
