

Insulated nut driver insert 1/4" hexagon head 8.0 mm, 42 mm - Wiha 43093

Item no. WH-43093

Manufacturer Wiha

EAN 4010995430931

VDE-certified insulated nut driver insert with 1/4" square drive and 8.0 mm hexagon head for safe work on electrical systems up to 1,000 V AC. Each insert undergoes individual piece testing to IEC 60900, providing dependable protection when installing terminals and fastening conductor lines.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	China
HS-Code	82042000
Weight	0.02 kg

STANDARDS & COMPLIANCE

IEC 60900

DESCRIPTION

The Wiha 246 insulated nut driver insert with 8.0 mm hexagon head and 1/4" drive is designed for the safe installation of terminals, sleeves and conductor connections, as well as fastening busbars. Full insulation prevents short circuits caused by unintentional contact with a second conductor, even in confined working environments.

BENEFITS

- Fully insulated to IEC 60900 with individual piece testing: safe for use up to 1,000 V AC
- 8.0 mm hexagon head for commonly used hex screw sizes in electrical installations
- 1/4" square drive, compatible with Wiha insulated ratchet wrench, T-handle adapter and slimVario® electric adapter
- 42 mm overall length, compact 18 mm outer dimension for work inside tight enclosures
- VDE certified for work on live parts

TECHNICAL DATA

- Hexagon head: 8.0 mm
- Overall length: 42 mm
- Drive: 1/4" square

- Dimensions: 42 x 18 x 18 mm (L x W x D)
- VDE certified: Yes

APPLICATIONS

Safe installation of terminals and sleeves, conductor connections and fastening of busbars. For work on live parts up to 1,000 V AC. Compatible only with Wiha insulated ratchet wrench, cross-handle adapter and slimVario® electric adapter.

Country of origin: China. HS code: 82042000.
