DESCRIPTION

This fully insulated nut driver insert with an 11.0 mm hexagon head and 1/4" drive is designed for use on live electrical installations. The complete plastic insulation shields the user from unintended current flow - and in confined switchgear spaces, it prevents short circuits caused by accidental contact with adjacent conductors.

BENEFITS

- Fully insulated to 1,000 V AC - reliable protection when working on live parts
- Individually tested to IEC 60900 - each insert undergoes its own insulation integrity check
- 11.0 mm hexagon head - fits M7 fasteners and corresponding terminal sizes
- Compact length 42 mm - manageable in tight installation situations
- VDE certified - verified safety for professional electrical work
