DESCRIPTION

This fully insulated nut driver insert with a 14.0 mm hexagon head and 1/4" drive enables safe work on live electrical installations up to 1,000 V AC. The complete plastic insulation prevents current flow on unintended contact and guards against short circuits from accidental contact with a second conductor - even in confined switchgear spaces.

BENEFITS

- Fully insulated to 1,000 V AC - protection on direct contact with live parts
- Individually tested to IEC 60900 - each insert undergoes its own insulation integrity test
- 14.0 mm hexagon head - suitable for M9 connections and larger terminal sizes
- Compact length 42 mm - manageable even in tight installation spaces
- VDE certified - standards-compliant safety for professional electrical work
