

Insulated Nut Driver Insert 3/8" Internal Hexagon 5.0 mm x 75 mm - Wiha 43106

Item no. WH-43106

Manufacturer Wiha

EAN 4010995431068

Fully insulated nut driver insert with 3/8" drive and 5.0 mm internal hexagon for safe work on live parts up to 1,000 V AC. Tested to EN/IEC 60900 and VDE certified. Suitable for hex socket fasteners in electrical installations.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	China
HS-Code	82042000
Weight	0.06 kg

STANDARDS & COMPLIANCE

IEC 60900

DESCRIPTION

This nut driver insert with a 5.0 mm internal hexagon and 3/8" drive allows safe tightening and loosening of hex socket screws on live parts up to 1,000 V AC. The full insulation is tested to EN/IEC 60900 and provides reliable protection in confined and hard-to-reach areas.

BENEFITS

- Fully insulated to 1,000 V AC - reliable protection when working under voltage
- Tested to EN/IEC 60900 - standards-compliant insulation integrity
- 5.0 mm internal hexagon - fits common hex socket sizes used in electrical engineering
- Length 75 mm - suitable for deeper and less accessible fasteners
- VDE certified - approved for professional electrical work

TECHNICAL DATA

- Internal hexagon: 5.0 mm
- Drive: 3/8"
- Overall length: 75 mm
- Dimensions: 77 x 23 x 23 mm (L x W x D)
- VDE certified: Yes

- Rated voltage: 1,000 V AC

APPLICATIONS

For tightening and loosening internal hexagon screws on live electrical equipment and systems.
Tested to EN/IEC 60900.

Made in China. HS code: 82042000.
