

PocketStar TORX L-Key Set 8-pcs., 120 mm Folding Holder - Wiha 23047

Item no. WH-23047

Manufacturer Wiha

EAN 4010995230470

The PocketStar L-key set holds 8 TORX blades (T9 to T40) in a compact fiberglass-reinforced folding holder with a one-handed opening button for fast size selection. The 120 mm holder works as a T-handle or inline screwdriver and covers the most common TORX sizes for workshop and field use.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Poland
HS-Code	82054000
Weight	0.196 kg

DESCRIPTION

Eight TORX blades are stored in the compact folding holder and can be moved into the working position individually - the other keys stay in place without swinging back. The opening button lets you select the required size with a single hand, saving time when working in tight spaces. The fiberglass-reinforced housing (120 x 41 x 33 mm) is built for intensive workshop and on-site use.

BENEFITS

- Single-key selection via opening button - only one blade moves to working position at a time
- Folding holder usable as T-handle or inline screwdriver - adapts to the task
- 270° position provides a lever arm for higher torques
- 180° position converts the holder into a screwdriver
- Full set of common TORX sizes T9 to T40 included

TECHNICAL DATA

- Housing dimensions: 120 x 41 x 33 mm (L x W x D)
- Housing: fiberglass-reinforced plastic, ergonomic shape
- Blades: T9, T10, T15, T20, T25, T27, T30, T40
- Number of pieces: 8
- Weight: 196 g
- EAN: 4010995230470

APPLICATIONS

Suitable for TORX fastening tasks in the workshop, assembly, and mobile use. The folding holder allows TORX screws to be inserted and removed even in hard-to-reach holes. Made in Poland (HS 82054000).
