

Teilapparat für MICRO-Fräse MF 70 und Koordinatentisch KT 70 - Proxxon 24264

Item no. PX-24264

Manufacturer Proxxon

EAN 4006274242647

The dividing attachment extends the MF 70 micro mill and KT 70 coordinate table with accurate indexing and round machining. It lets workpieces be turned squarely and divided into even increments.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	0.709 kg

DESCRIPTION

The dividing attachment adds accurate indexing and round machining to the MF 70 micro mill and the KT 70 coordinate table. This makes even hole patterns and divisions possible.

Benefits

- Accurate indexing for even hole patterns and slots
- Round machining of small workpieces
- Matched directly to the MF 70 and KT 70

TECHNICAL DATA

- Dimensions: 140 x 90 x 90 mm
- Weight: approx. 0.71 kg
- Country of origin: Germany

Applications

Accessory for the MF 70 and KT 70 in model making and precision mechanics for indexing and round machining.
