

Feinfräse FF 500/BL CNC-ready bürstenlos - Proxxon 24364

Item no. PX-24364

Manufacturer Proxxon

EAN 4006274243644

The FF 500/BL CNC-ready micro mill is the CNC-prepared version of the sturdy bench milling machine with brushless motor. Its heavy, rigid build suits precise milling and drilling and later CNC operation.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	46.4 kg

DESCRIPTION

The FF 500/BL CNC-ready micro mill combines the precision of the sturdy bench mill with preparation for CNC operation. Its brushless drive and heavy, rigid build give smooth running and accurate results.

Benefits

- Prepared for conversion to CNC operation
- Brushless motor for smooth, low-maintenance running
- Heavy, rigid build for high precision

TECHNICAL DATA

- Dimensions: 595 x 595 x 640 mm
- Weight: approx. 46.4 kg
- Country of origin: Germany

Applications

Tool and mould making, prototyping and precision mechanics with the option of later CNC operation.
