

Disc Sander TG 125/E 140W Ø 125 mm - Proxxon 27060

Item no. PX-27060

Manufacturer Proxxon

EAN 4006274270602

The TG 125/E disc sander works wood, steel, non-ferrous and precious metals and plastics at an adjustable speed of 250 to 800 m/min. The balanced DC motor runs vibration-free and the disc measures Ø 125 mm.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	4.128 kg

DESCRIPTION

The TG 125/E disc sander handles all types of wood, steel, non-ferrous metal, precious metal and plastics including Plexiglas and GRP. The adjustable sanding speed of 250 to 800 m/min can be matched to material and task.

- **Adjustable speed:** 250 to 800 m/min (equal to 1,150 to 3,600 rpm).
- **Low-vibration running:** powerful, balanced DC motor.
- **Sturdy housing:** made of glass-fibre reinforced polyamide.
- **Adjustable table:** aluminium, tilts 50° down and 10° up, with angle guide.
- **Quick disc change:** faced die-cast aluminium plate with silicone film so self-adhesive discs peel off easily; two silicone films store used discs for reuse.
- **Dust-free work:** extraction channel with port for connecting a vacuum.
- **Flexible setup:** mounts horizontally with the table or vertically.

TECHNICAL DATA

- Voltage 230 V
- Power 140 W
- Frequency 50/60 Hz
- Sanding speed approx. 250 to 800 m/min (1,150 to 3,600 rpm)
- Sanding disc Ø 125 mm
- Table 98 x 140 mm
- Sanding height 62.5 mm

- Size 300 x 140 x 160 mm
- Weight approx. 3 kg

In the box: 2 each of grit 80, grit 150 and grit 240 sanding discs.

Applications: model making, precision mechanics, jewellery and workshop tasks in wood, metal and plastic.
