

Micro Miller MF 70/CNC-ready - Proxxon 27112

Item no. PX-27112

Manufacturer Proxxon

EAN 4006274271128

The MF 70/CNC-ready MICRO miller is the CNC-prepared version of the MF 70. A compact precision bench mill for fine milling and drilling that can be automated later.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	11.01 kg

DESCRIPTION

The MF 70/CNC-ready MICRO miller is the CNC-prepared variant of the proven MF 70 and suits fine milling and drilling on small workpieces in metal, plastic and wood.

- **CNC-ready:** prepared for later conversion to computer-controlled operation.
- **Precise machining:** for accurate milling and drilling on small parts.
- **Stable build:** rigid bench unit for smooth running.

TECHNICAL DATA

- Dimensions approx. 505 x 380 x 260 mm
- Weight approx. 11 kg

Applications: model making, precision mechanics and tool making, also as a base for CNC upgrade.
