

Mitre Saw KGS 80 - Proxxon 27160

Item no. PX-27160

Manufacturer Proxxon

EAN 4006274271609

The KGS 80 cut-off and mitre saw cuts strips and profiles to size and at an angle. Ideal for clean mitre cuts in model making, frame building and the fine workshop.

TECHNICAL DATA

Ausführungsklasse	TEC
Country of Manufacture	Germany
Weight	6.418 kg

DESCRIPTION

The KGS 80 cut-off and mitre saw makes straight cut-off and angled mitre cuts and delivers clean, accurate edges on strips and profiles.

- **Mitre cuts:** for exact angled cuts on frames and strips.
- **Accurate:** for repeatable lengths and angles.
- **Stable build:** bench unit for controlled, smooth cuts.

TECHNICAL DATA

- Dimensions approx. 395 x 250 x 315 mm
- Weight approx. 6.4 kg

Applications: model making, frame and strip building, precision mechanics with mitre and cut-off work.
