

Anti-static flat brush with grounding cable, 140 mm - Kinetronics SW-141

Item no. SW - 141

Manufacturer Kinetronics

Anti-static cleaning brush, 140 mm wide, with an additional grounding cable for especially effective discharge. Bristles of soft natural hair and conductive synthetic fibers, conductive plastic handle. For areas with strong, recurring charging.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
ESD equipment	ESD-Bürste
Sales unit	1 Stück
Weight	0.1 kg
Width	140

DESCRIPTION

The Kinetronics StaticWisk SW-141 is the grounded version of the 140 mm flat brush. The supplied grounding cable drains static charges directly to ground and is an advantage where charges are extreme and recurring.

BENEFITS

- grounding cable for direct discharge to earth under heavy charging
- wide 140 mm face for fast cleaning of large areas
- blend of soft natural hair and conductive synthetic fibers binds dust instead of moving it around
- anti-static performance survives washing with a mild shampoo

TECHNICAL DATA

- brush width: 140 mm
- grounding: grounding cable included
- bristles: natural hair / synthetic fiber, conductive
- handle: conductive plastic
- maximum operating temperature: 65 °C
- scope of delivery: 1 StaticWisk cleaning brush with grounding cable

APPLICATIONS

Cleaning large optics, scanners, displays, circuit boards and plastic parts in areas with high static load.

CARE

When soiled, wash with a mild shampoo, comb the fibers and let them dry flat overnight.
