

Anti-static flat brush with grounding cable, 280 mm - Kinetronics SW-281

Item no. SW - 281

Manufacturer Kinetronics

Anti-static cleaning brush, 280 mm wide, with an additional grounding cable for especially effective discharge. Bristles of soft natural hair and conductive synthetic fibers, conductive plastic handle. For large-area cleaning under strong charging.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**ESD equipment **ESD-Bürste**Sales unit **1 Stück**Weight **0.1 kg**Width **280**

DESCRIPTION

The Kinetronics StaticWisk SW-281 is the grounded version of the 280 mm flat brush. The supplied grounding cable drains static charges directly to ground and is an advantage where charges are extreme and recurring.

BENEFITS

- grounding cable for direct discharge to earth under heavy charging
- very wide 280 mm face for large-format cleaning in just a few strokes
- blend of soft natural hair and conductive synthetic fibers binds dust instead of moving it around
- anti-static performance survives washing with a mild shampoo

TECHNICAL DATA

- brush width: 280 mm
- grounding: grounding cable included
- bristles: natural hair / synthetic fiber, conductive
- handle: conductive plastic
- maximum operating temperature: 65 °C
- scope of delivery: 1 StaticWisk cleaning brush with grounding cable

APPLICATIONS

Cleaning large-format optics, scanners, displays, film and plastic parts in areas with high static load.

CARE

When soiled, wash with a mild shampoo, comb the fibers and let them dry flat overnight.
