ESD safe

DESCRIPTION

The Treston M900 perforated back panel is a perforated steel rear panel that structures the work area and at the same time acts as practical storage for tools and equipment. The dissipative ESD version protects electrostatically sensitive components.

TECHNICAL DATA

- **Series:** M900
- **Width x height:** 878 x 389 mm
- **Colour:** RAL 7035 grey
- **Version:** ESD, dissipative
- **Material:** perforated steel

APPLICATION

Hooks, holders and other accessories can be hung flexibly into the perforations, keeping frequently used tools within reach and the workstation tidy.
