ESD safe

DESCRIPTION

BIN RAIL M750 ESD

The Treston bin rail 859151-49 (type M750) holds picking bins and presents them in a space-saving way at the workstation. The dissipative ESD version suits electrostatically protected areas and ensures an orderly, ergonomic supply of material.

TECHNICAL DATA

- **Type:** M750
- **Width x height:** 742 x 100 mm
- **ESD:** dissipative
- **Weight:** 1.9 kg

APPLICATION

The rail keeps picking bins within reach and promotes an upright, ergonomic working posture. It is ideal for assembly, inspection and picking stations in electronics manufacturing.
