|------------------------|------------------------|
| Ausführungsklasse      | TEC                    |
| Country of Manufacture | Germany                |
| HS-Code                | 39239000               |
| Note                   | Stück auf Palette - 15 |
| Weight                 | 16.8 kg                |

## DESCRIPTION

Hygiene pallet in pure new-material HDPE in the format for food-safe storage and transport.

- Made exclusively of new material and therefore food-safe.
- The smooth surface absorbs no moisture and helps prevent germs and bacteria from collecting.
- Heat- and cold-resistant and easy to clean.
- A standard retaining edge fixes stacked containers, with an edge-free version available.

Used in the food, meat and beverage industries for hygienic storage and transport.

Food-safe in pure new-material HDPE, manufactured in Germany.

## Technical data

|                      |                      |
|----------------------|----------------------|
| Dimensions L x W x H | 120 x 80 x 16.3 cm   |
| Upper surface        | Perforated           |
| Design               | 3 longitudinal skids |
| Weight               | 11.67 kg             |
| Tolerance ±          | 10%                  |
| Material             | HD-PE                |
