DESCRIPTION

ALUMINIUM BIN PROFILE BP150

The Treston BP150 is a sturdy aluminium profile for holding stacking and picking bins. At 1415 mm long it suits workstations 1500 mm wide and provides an orderly, easy-to-reach store for small parts right at the work area.

TECHNICAL DATA

- **Profile length:** 1415 mm
- **Suitable workstation width:** 1500 mm
- **Material:** aluminium
- **Weight:** 1.5 kg

APPLICATION

The profile mounts on TPH hanging fixtures and can also be used on the auxiliary steel shelf ASSA4. It accepts stacking and picking bins, supporting an ergonomic supply of material at the assembly or packing station.
