

Aluminium bin profile BP150 ESD, length 1415 mm for TPH, width 1500 mm - Treston BP150 ESD

Item no. TR-BP150 ESD

Manufacturer Treston

EAN 6416763084081

Dissipative aluminium profile for holding stacking and picking bins. It measures 1415 mm and fits TPH hanging fixtures as well as the auxiliary steel shelf ASSA4. The ESD version protects electronic components from static charge.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Finland
HS-Code	94039090
Weight	1.5 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

ALUMINIUM BIN PROFILE BP150 ESD

The Treston BP150 ESD is a sturdy, dissipative aluminium profile for holding stacking and picking bins. At 1415 mm long it suits workstations 1500 mm wide and is designed for use at ESD-protected work areas.

TECHNICAL DATA

- **Profile length:** 1415 mm
- **Suitable workstation width:** 1500 mm
- **Material:** aluminium
- **ESD:** dissipative
- **Weight:** 1.5 kg

APPLICATION

The profile mounts on TPH hanging fixtures and can also be used on the auxiliary steel shelf ASSA4. In the ESD work area it accepts stacking and picking bins and helps protect sensitive electronics from electrostatic discharge.
